

MATTEO MONGELLI

AUGUST 2025 –
ONGOING

Member Conseil des Jeunes ALCOTRA

Interreg VI-A France-Italy Program (2021-2027) | Turin, Italy & Chambéry, France

Selected member of the cross-border youth council of the Interreg ALCOTRA Programme, a European territorial cooperation initiative fostering regional development, youth engagement, and Franco-Italian relations.

- Policy Development – Contributed to programme thematic priorities and presented proposals during Monitoring Committee meetings.
- Project Monitoring – Followed the implementation of funded projects, assessed progress, and awarded the “ALCOTRA Jeunes” label.
- Stakeholder Engagement – Maintained regular contact with programme authorities, project leaders, and European youth councils such as SUERA.
- Communication & Outreach – Promoted new calls for proposals, interviewed beneficiaries, and supported public events to increase visibility of ALCOTRA initiatives.
- Intercultural Cooperation – Designed actions to strengthen connections between French and Italian youth and encourage cross-border collaboration.

MAY 2025 –
ONGOING

Public Management Research Fellow | Innovation & AI in Education

Università della Valle d'Aosta – Aosta, Italy

Research Fellow at the University of Valle d'Aosta (UNIVdA), under the supervision of Professor Elisa Pintus. My main responsibilities and research included activities in the field of:

- Public Governance – Conducted research on governance frameworks and educational policy instruments within the “Educational Services Management” project;
- Stakeholder Management – Identified, mapped, and engaged key stakeholders – including school principals, educators, and local administrators – to assess perceptions, expectations, and collaboration patterns;
- Network Analysis – Examined inter-institutional relationships to analyse the dynamics of cooperation between schools and local authorities in delivering educational services;
- Digital Innovation in Education – Contributed to the development of inclusive and digitally-oriented teaching models to address territorial disparities and promote systemic improvement;
- Policy Analysis and Drafting – Produced evidence-based insights and contributed to the drafting of strategic policy proposals aimed at improving the regional educational system.

DECEMBER 2020 –
APRIL 2025

Project Officer & Research Fellow | Health Policy & AI in Health

Istituto Italiano di Tecnologia – Aosta, Italy

Research Scholarship in the *5000Genomi@VdA* research project, led by the Istituto Italiano di Tecnologia (IIT). The project involved collaboration with Engineering D.Hub, Città della Salute e della Scienza of Turin, Fondazione Clement Fillietroz ONLUS – Osservatorio Astronomico della Valle d'Aosta e Planetario di Lignan, and Università della Valle d'Aosta. My tasks included:

- Policy Development – Drafted analytical reports, policy briefs, and recommendation to support the integration of Artificial Intelligence and genomics into regional healthcare policies;
- Research and Public Outreach – Conducted public health research on the social perception of precision medicine in the Aosta Valley. Participated in the *Civic Education and Science* project, organized in collaboration with the European Centre for Bioethics (UNESCO Chair), where I presented ethical dilemmas related to Artificial Intelligence to high school students;

- Feasibility and Impact Assessment – Developed feasibility plans and impact evaluations for public policies and research projects, ensuring evidence-based decision making.
- Project Management and Strategic Development – Supported the definition of the CMP3VdA's business model, business plan and strategic initiatives, including the design of a patent strategy for innovative solutions;
- Communication Strategy Development – Designed a communication strategy that increased research participation, significantly boosting engagement, especially among the 18-25 age group;
- Networking and Stakeholder Engagement – Managed relations with project partners and stakeholders, establishing a stable network with regional, national and international SMEs and companies. Actively participated in B2B events to foster collaborations and partnerships;
- Event Organization – Planned and coordinated scientific events and conferences to promote knowledge sharing, collaboration, and dissemination of project findings;
- Grant Writing – Developed and wrote grant proposal to secure fundings for research activities, ensuring alignment with project goals and strategic priorities.

JANUARY 2020 –
JANUARY 2021

Civil Servant

Salesiani per il Sociale, Comunità Harambèe - Casale Monferrato, Italy

I spent a year as a civil servant in a facility hosting refugees and foreign unaccompanied minors. My responsibilities included:

- Advocacy for minors' rights and well-being – Acted as a liason with legal professionals, ensuring the protection of minors' rights and guiding them through residency procedures while promoting compliance with local regulations;
- Fostered integration and coordination – Collaborated with healthcare providers, educators and social workers to address both immediate and long-term needs.

OCTOBER 2015 –
APRIL 2016

Intern

Local Health Authority, Psychology Department - Vercelli, Italy

During my internship, I focused on activities highlighting psychology's role in well-being, including:

- Needs assessment and tailored interventions – Conducted pre-clinical interviews and assessed patients' psychological needs to identify challenges and recommend personalized solutions;
- Team collaboration and knowledge sharing – Participated in multidisciplinary supervision meetings, collaborating with psychologists to ensure high standards of care and develop integrated solutions for improved outcomes.
